

Heritage Treasures An In-Depth Analysis of UNESCO World Heritage Sites in Tableau

TEAM ID	SWTID-2026-2399
PROJECT TITLE	Heritage Treasures An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
MAX MARKS	5 MARKS

4.2 – Proposed Solution: The idea for Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau is to create a fun and easy to use platform that shows information about UNESCO World Heritage Sites in a way that's easy to understand. Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau will use Tableau to make this platform. Of using big lists of data and boring reports Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau will turn raw data about heritage into nice pictures like maps and charts that are fun to look at. The system will let users look at World Heritage Sites by country, region, type and year. Users can also use filters and dashboards to compare data find patterns and learn more about where Cultural, Natural and Mixed Heritage Sites are around the world. Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau will also have a website that makes it easy for people to use.

By using pictures and interactive tools Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau makes it easy to understand data about heritage. This helps people learn and do research. It also teaches people why it is important to protect UNESCO World Heritage Sites. Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites, in Tableau helps users get more out of the information they have. It helps them understand it better by using good pictures and stories.
